PRESS RELEASE

ManagePro® 10 Release – Redefines Management Software,
Bridging the Gap between Microsoft Excel and Outlook, with an Innovative Guarantee

Smith River, CA, April 28, 2011 – Performance Solutions Technology, LLC (<http://www.managepro.com>), announces the release of ManagePro® Version 10, the ultimate [manager software](#). Expanded project, performance and Outlook integration features deliver on every manager's request to, "Keep me organized, help me focus with multiple demands, and make it easier to track and balance projects, people and time." Additionally, PST provides a "trade-in" guarantee solution, allowing purchased licenses to be traded back for services, if un-adopted – to reduce the risk of purchasing software.

Top rated ManagePro® breaks new ground in matching up to every manager's needs, including the following in one industry leading tool:

- Project management
- Task management
- People and performance goal tracking
- Scorecards and dashboards
- Planning and resource allocation
- Meeting Management
- Document management
- Time cards
- Analytics
- Automated data pull from MS Excel, Project and SQL,
- Exceptional integration with Outlook

ManagePro® 10 adds more than twenty new enhancements, and steps squarely into the middle of the work process as a "leave it on all day" tool that helps you stay focused on what's priority, on top of your projects and tasks, and in touch with your people. New features include:

- **Recurring Events** that synchronize with Outlook
- **Immediate Focus on who's leading, who's accountable, and who's available** for any given task or project regardless of how many people are involved.
- **Expanded [Planning](#) and Resource Allocation** tools and reports.
- **Add features on demand**, sizing the program's feature set to user's skill level.

Customer Shout Out:

"This is the system we are using to manage our business," said Johnny Terrell, IAT Consulting Group. However the first time I used ManagePro® was when I was managing a full facility service type of contract in 1992. I was the Group Vice- President of ISS Facility Services. This

was at the time the largest contract worldwide for ISS and I was given 90 days to start it up. I had to secure office space, build it out, hire CFO, Administrative personnel, Custodial, Landscape, and Maintenance Managers, and a quality control manager. I had to negotiate with 350 vendors new contracts. Take a cleaning force that was currently 300 and reduce it in half. I discovered ManagePro® while on an airplane looking in the airlines magazine. There was an article from a Regional Vice President with Wal-Mart who stated that ManagePro® was the best management software he has ever used and it directly helped him be much more effective and control every aspect of his responsibilities. Knowing the enormous responsibilities of his position his testimony was enough for me.

I purchased ManagePro, facing the challenge of literally hundreds of tasks, a demanding schedule, plus managing over 40 full time managers who were sent in from all over the U.S. to assist. ManagePro® allowed me to have an exceptionally successful start up and ongoing management. Routinely my subordinates, and my boss, would comment they were amazed at how everything went so smoothly and nothing was forgotten etc. I owed it all to ManagePro. “

The Trade-in Guarantee

“Every executive can benefit from tools to help plan, track and follow-up. With our ManagePro® 10 trade-in system, we add the additional reassurance of guaranteeing that unused licenses can be traded back in for our meeting management service and managers don't lose a penny. It's all part of our continuing effort to build the leading management software, and also provide options for deploying it that reduce risk and generate even more value, “states Rodney Brim, Ph.D, CEO of Performance Solutions Technology.

ManagePro® 10 is available for download from www.managepro.com in both a desktop version and a web-based version (MProLite). Pricing starts as low as \$20/user for a monthly subscription, or a onetime licensing fee of \$525 for Standard and Smart editions. Licensing includes one year of free upgrades. ManagePro® operates on Windows 7, Windows XP and Vista operating systems.
